
LOG2/GR

1.75-1.85 GHz High Performance LAN YAGI Antenna 18 dBi

- **General.** The LOG/2GR Directional Antenna is designed for short distance FM Radio & TV microwave links purposes in 1.75 – 1.85 GHz frequency ranges. The antenna is made with non-corrosive aluminum alloy and composed of 27 elements, one polyester radome and a mounting bracket.
- **Horizontal or Vertical polarization** is possible with the standard mounting brackets.
- **Water, icing and moisture protection.** The internal elements are protected against water, icing and moisture ingress by a sealed polyester radome.
- **Instant installation.** The reduced overall dimensions and the low weight permit an easy installation even on light poles.
- **Lightning resistance** is guaranteed by the DC ground potential of the entire antenna.
