

RL-24

2.4 GHz MINI RUBBER DUCKY WIRELESS ANTENNA MMCX CONNECTOR 1DB GAIN

RL-24 is a 2.4 GHz omni-directional WiFi antenna with sleeve design and a right angle MMCX connector. This special connector allows it to be used with a wide range of wireless PC-Cards with external antenna ports and it can be rotated to help improve the signal.

Application:

- ◆ 2.4 GHz ISM Band
- ◆ Public Wireless Hotspot
- ◆ Bluetooth
- ◆ Wireless Video System
- ◆ Multipoint and Mobile Applications

Technical Specifications	
Frequency:	2400-2500
Gain:	1 dBi
Impedance:	50 ohms
VSWR	<2.0
Weight:	3.6 g
Length:	2.16"
Max. Diameter	0.32"
Finish:	Matte black
Connector:	MMCX plug right angle
Operating temperature:	-20° C to 65° C
Polarization	Vertical
Flame rating	UL 94 HB
RoHS compliant	Yes
